

Creating a twitter feed

Go to settings and select Widgets to create a new widget.

You can choose to show

- User timeline (@)
- Your favourites
- List
- Search (#tag)

Select create widget to get the code to paste into the HTML of your site.

Create a user widget

Add any public Twitter timeline to your website using the tool below. Simply select your timeline source, options, and copy and paste the code in the HTML of your page.
For more information, read the [developer documentation](#).

Tweet to @deecd

Why?

Follow organisations such as the World Health Organisation in a class blog for Health and Human Development

Select your favourite tweets to reflect a current topic for class discussion or assignment eg: federal election or a royal baby.

Set up a professional list and feed through to a collaborative blog or wiki.

```
<a class="twitter-timeline" href="https://twitter.com/deecd" data-widget-id="349730515936489473">Tweets by @deecd</a>
<script>function(d,s,id){var js,fjs=d.getElementsByTagName(s)
```

Copy and paste the code into the HTML of your site.

Adding your twitter feed to Global2

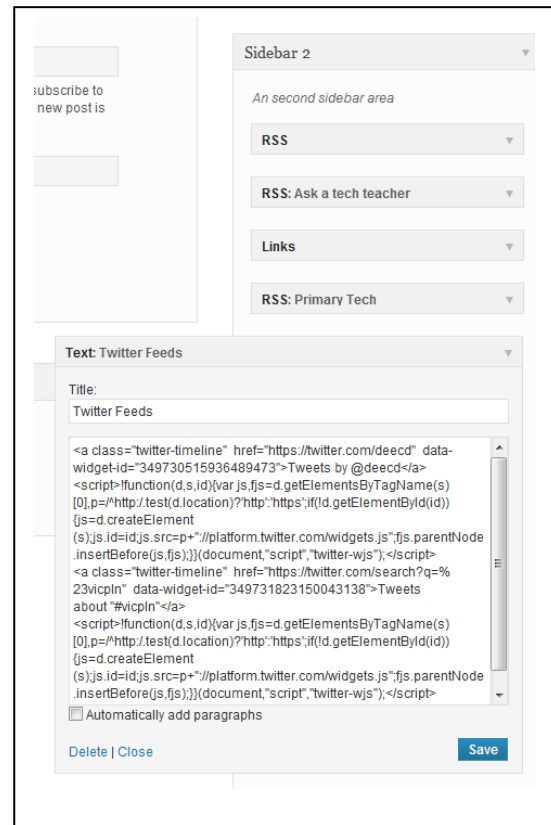

In the Dashboard – choose Widgets

Add the text widget to the sidebar

Give the text box a title and paste in your twitter code.

You can create more than one feed and paste them all in the box – this is the one from digital learning news. It has two feeds: @DEECD and #VicPLN

For wikispaces

When editing a page, select Widget – Social – Other to get a text box to paste in embed code.
