CODING THE FUTURE in 2017

2017 is the Year of Digital Technologies in schools right across the country, where coding in the Australian Curriculum comes to life.

Come along to this meetup to find out what this curriculum means for schools, what's involved and how best to get started.

Hear from teachers and volunteers involved in Code the Future projects and find out how easy it is to get started and help code the future in 2017!

This meetup is for both interested volunteers and teachers. We can't wait to see you there.

When: Thursday 23rd March, 6pm
Where: Intrepid Travel, L7 567 Collins Street, Melbourne
Register now:
