Hi everyone

Hope you have had a great start to the year. Heaps of news, PD and student opportunities for you in this newsletter.

**New Pedagogies for Deep Learning** is an exciting global project that will connect ten clusters of 100 schools from around the world. Australia will be represented by a cluster comprising 80 Victorian and 20 Tasmanian schools. The initiative aims to articulate and demonstrate how the potential for learning can be realised through new pedagogies in a technology-rich society and will be led by Michael Fullan.

It’s not often that schools get an opportunity to participate in an initiative which is international, and involves such great thinkers around education. If you want to be involved put in an **Expression of Interest** by 3 March 2014.

**This week’s blog post:**

**iPad Orchestra at Boneo Primary School**

Students at Boneo Primary School have written about their iPad Orchestra, including information about the apps they use. A great video showcases the how the Orchestra come about and what they students like about using musical apps.

Sally Walsh also invites classes to collaborate with Boneo for online music classes. All you will need is a data projector or IWB and a computer. Lessons are at different times of the week, covering all primary grades and lots of different activities. No experience in either music or technology necessary! Contact Sally Walsh: walsh.sally.j@edumail.vic.gov.au
